- Server Setup: DNS, NGINX, IIS etc.

Personal Skills
- Natural interests in art, design and technology
- Understanding of the principles and inner workings of responsive web design
- Excellent written communication skills
- Broad experience of projects from planning through implementation and delivery

EDUCATION

Undergraduate Degree
Aston University, Birmingham: BSc Engineering Product Design, Classification: 2:1 with Honours

A Levels
Devonport High School for Boys
- Design and Technology: A
- General Studies: A
- Mathematics: C
- Physics: D

GCSEs
Devonport High School for Boys
- 5x Grade A
- 5x Grade B

EMPLOYMENT

Senior Developer, Quick by Design Ltd   **06/2006 - Present**

I am responsible both for the maintenance and development of the company's core product, a website delivery platform designed to allow bespoke-designed sites to be delivered quickly and then to be fully content-managed by clients. Sites can range from simple brochure sites to complicated high-value eCommerce environments with a wide range of variations. Large fully-bespoke builds and the majority of design work is also part of my workload. As senior developer, I manage a small team of programmers who work with me to deliver sites to clients.

Key Achievements
- Design and build of a full content-managed eCommerce system from the ground-up
- Training a number of junior programmers to build and efficient development team
- Managing customers' expectations, from small local business to large multi-national organisations

Developer, PC Web Services Ltd   **01/2006 - 06/2010**

Working for a small family-run business developing bespoke websites to order. Often this involved concentrating on new technologies as they were required or became available. Due to the size of the business, this often meant engaging directly with clients in a sales/marketing role.

Key Achievements
- Mastering a number of new techniques and languages as required by clients
- Bringing all older sites to match the current standards set out by the W3C
- Implementing a number of fully accessible website for visually-impaired users

New Media Developer, Pera Neville Clarke   **10/2002 - 01/2006**

Following my placement year, I returned to Pera to continue my previous role, but quickly identified an opportunity to engage my interests both of design and technology to become part of the marketing team. In this role I produced a number of internal and external websites, these often being high-budget government-funded projects.

Key Achievements

- The successful design, development and delivery of information4innovation - an award-winning government website for the benefit of SMEs
- Working directly for the marketing manager of a large multi-national producing graphics work for projects and exhibitions around the world.

Analyst, Pera Knowledge   **10/2000 - 08/2001**

Industrial placement year in the information centre within Pera Group. Daily client contact was maintained in a consultant's role covering a large range of subjects including: mechanical engineering, product design, British and international standards, supplier sourcing, rapid prototyping, digital media, graphic design and web design.

Key Achievements

- First introduction to a professional office environment - very quickly learning how to conduct myself amongst co-workers and important clients.
- Successfully delivering engineering and design solutions to a range of clients on-time and in-budget

PERSONAL INTERESTS

Youth Leader

As youth leader at my church I am required to lead a team to organise and deliver youth activities on a weekly basis for a group of children aged 4-13 years. I also prepare the lessons for our Sunday School, organising a group of 20+ teachers.

Logo and Branding Design

I am part of an online community of designers engaging in competitions to provide designs at a low-budget. This gives me freedom to push the boundaries of my graphical interests in directions beyond the confines of my employed work.

Watersports

Growing up in the South West, I became a keen sailor and regularly competed in club sailing and became involved in the provision of safety boats for national and international competitions. Now living in the Midlands, the opportunity for this is less readily available, but I enjoying canoeing, kayaking and any other form of watersports when I am able.

First Aid

In my work environment, my roles at church and as a father, I decided it was important to become an active first-aider and currently hold first-aid at work and paediatric first-aid certificates.

Art, Film and Photography

In most things I do in life, I am never far from one of these three passions. Whilst I would not call myself and artist, I enjoy experiencing art and film in any medium. Its also not unusual to find me out with my camera taking what I believe are interesting and unusual shots.
